Award

June 2006

## Solid partnership with Thomson confirmed

PT Thomson Batam, Indonesia, has awarded EPCOS Singapore the designation of best supplier in 2005. Thomson paid tribute not only to the excellent quality of our products, but also to our innovative power, outstanding service and ongoing improvements in deliveries. The award was presented at the 2006 Suppliers Conference under the motto «Building Solid Partnership».

For many years, EPCOS has supplied Thomson primarily with SAW filters for multimedia applications such as tuners for TV sets. The company now also purchases film capacitors and inductors from EPCOS.

### About Thomson

The Thomson Group provides a wide range of video technologies and systems as well as products and customer services to private and professional users in the entertainment and media industries. Employing over 66,600 people, the Thomson Group posted sales of about €5.6 billion in 2005. Its Indonesian subsidiary, PT Thomson Batam, was founded in 1991 as part of the Technology Division and manufactures analog and digital tuners.
