

Press Release for the Trade Press

August 2006

## Inductors: Model libraries extended

EPCOS has extended its model libraries for single and dual chokes. Now new model libraries for power inductors are available at no cost. Components that have undergone recent changes as well as new products were added to the libraries. The updated libraries can be identified by their version numbers:

Updated libraries	SIMID 0603 (B82496) SIMID 0805 (B82498) SIMID 1210 (B82412, B82422) SIMID 1812 (B82432) SIMDAD (SMD I-core data line chokes B82789)
Extended libraries	DLD (SMD ring-core data line chokes B82790/93/99)
New libraries for power inductors	6 x 6 (B82462) 10 x 10 (B82464) 4.8 x 4.8 (Low-profile B82470) 7.3 x 7.3 (B82472) 12.95 x 9.4 (B82476) 12.3 x 12.3 (B82477)
Library containing all older SIMID types	SIMID

Additions to the SIMID and data line choke (DLC) libraries as well as other libraries for power inductors will follow. Libraries are available for the PSPICE and HSPICE simulation programs in English and German. Users may select between the Windows and UNIX / LINUX operating systems. The files have been compressed in ZIP or TAR archives for fast downloading.
